💼 PROFESSIONAL EXPERIENCE

Datavista Solutions, Mumbai [July 2021-May 2024] - **Jr. Web Developer**

Contributed to the creation and maintenance of the **SchoolZone** web application, a comprehensive **ERP solution for educational organizations**. Developed and implemented modules to improve system functionality and user experience. Used **React**, **React Native**, **Node.js**, **MySQL**, and **PHP** to develop efficient and scalable solutions.

- **Online Proctoring System:** Delivered a secure exam system with auto-saving, question randomization, auto-marking, tab-switch detection, and advanced **mobile app** security features.
- **Learning Management System (LMS):** Created teacher-student portals for class materials, assignments, and assessments, with features resembling **Google Classroom**.
- **Interactive Chat Platform:** Designed a secure, interactive communication medium using **Node.js** and **Socket.io** with file sharing, group messaging, and real-time notifications.
- Improved user experience by contributing to the development and enhancement of essential modules, including **Feedback Management**, **Short-Term Courses Porta**l, **Attendance Tracking**, **Result Processing**, **Communication Systems**, **Staff and Student Management**, **Student Services**, and **ID card generation**.

🗁 PROJECTS

Natures Hut - 2024

- Built a responsive **booking platform** with **user**, **admin**, and **owner** panels.
- **User Panel:** Includes search, filters, detailed listings with review videos, cart, wishlist, and **Razorpay**-enabled checkout.
- **Admin Panel:** Manages villas, treks, camps, orders, admins, and queries with email notifications.
- **Owner Panel:** Enables owners to update pricing and details dynamically. Delivered a **mobile-first design** ensuring compatibility across all devices.
- Technology Used: **React, Redux, Node.js, PostgreSQL, Tailwind CSS**

Newton Mart - 2021

- Designed with a mobile-first approach, delivering a polished and user-friendly interface.
- Developed a responsive full-stack **e-commerce platform** with **user** and **admin** panels for seamless shopping and management experiences.
- **User Panel:** Implemented product **search, filter, comparison**, and **review video integration**; built cart and checkout workflows with **Razorpay** for payments and **Shiprocket** for shipping.
- **Admin Panel:** Comprehensive tools for product, category, order, and user management, with email notifications for customer queries.
- Technology Used: **PHP, MySQL, JavaScript, HTML, CSS, Razorpay API, Shiprocket API**
